

Puerto Vallarta, Mexico

Known as a hub of the "Mexican Riviera," its cobblestone streets mix with resorts turning this city into the second most visited in the country. There are few places to experience sea, surf, sand, jungles, mountains, and rivers all in one general location. Puerto Vallarta is one of them!

Vallarta Palace

This 4 Diamond Award winning resort is situated to the north of Puerto Vallarta in Nuevo Vallarta. The Vallarta Palace sits atop one of the longest and most beautiful stretches of beach along the Bay of Banderas. To the north, the shoreline curves toward the Marietas Islands, to the south one can see the twinkling evening lights of downtown Vallarta, to the east the towering Sierra Madre Mountains, and to the west the unbroken gentle ripples of the bay stretching out and flowing into the Pacific.
